PROFILE

Junior Software Developer, recently completed Level 5 Diploma in Full Stack Development with Code Institute while working for Lloyds Banking Group where I am experienced in delivering great customer service, coaching peers and communicating with shareholders. I am excited to change to a new career in Software Engineering using my strong interpersonal skills, problem solving logic, enthusiasm and self-motivation skills.

TECHNOLOGIES

- **Languages**
  JavaScript, Python, HTML, CSS
- **Frameworks/Libraries**
  Django, Bootstrap, Bulma, Flask, jQuery, Materialize, ReactJS
- **Databases**
  Postgres, MySQL, MongoDB
- **Version control**
  Git, GitHub, GitPod, VSCode
- **Deployment Systems**
  GitHub Pages, Heroku, AWS

CURRENT/FUTURE LEARNING

- **Current**
  React.js, React Hooks, TypeScript

- **Future**
  Docker, NodeJS

SKILLS

Leadership
✔ Coaching in Channel Lead role at Code Institute, guiding new students, leading webinars and also my peers in Lloyds Banking Group.

Communication
✔ Excellent collaboration with peers, employees and stakeholders to provide greatest outcome with projects and client needs. Experience in presenting new content to peers and following up with regular updates when required.

Problem Solving
✔ Built projects using coding technologies learned, supported in study group sessions. Continued post-diploma learning via CodeWars and Codility coding challenges.
